Discover a world of calm and relaxation with our Massage Therapy course. Massage therapy is the act of manipulating the pressure points on a human body via tension, motion or vibration.

The LaSalle College massotherapy training will teach you everything you need to know about massage therapy and the human anatomy. Our optional internship program will help you get a foot in the door of the body care industry, and help you decide which path to follow once the session is over.

Upon completion of your training, you be eligible to take the [Association des Massothérapeutes du Québec \(AMQ\)](#) exam and work as a qualified massage therapist. As a graduate, you will find work in spas, hotels, resorts, medical clinics, the home care industry and you can even open your own business!

\*This program is only offered at our Montréal campus.

## Diploma

This program leads to a LaSalle College Certificate.

## Program-Specific Competencies

- Master professional massage and body treatment techniques
- Be eligible to take the exam and work toward full accreditation from the AMQ (Association des massothérapeutes du Québec)
